

Title: Analyst, Financial Planning and Analysis
Department: Finance
Location: Marlborough, MA

About Akoya Biosciences:

As 'The Spatial Biology Company®', Akoya Biosciences' mission is to bring context to the world of biology and human health through the power of spatial phenotyping. The company offers comprehensive single-cell imaging solutions that allow researchers to phenotype cells with spatial context and visualize how they organize and interact to influence disease progression and treatment response. Akoya offers two distinct solutions, the CODEX® and Phenoptics™ platforms, to serve the diverse needs of researchers across discovery, translational and clinical research.

Position Summary:

The Financial Planning and Analysis (FP&A) Analyst will be responsible for supporting the strategic finance function at Akoya which includes financial modeling, budgeting, M&A, and other data analysis. The optimal candidate will be tenacious, inquisitive and gracious with the ability blend financial modeling, data analysis and strategic thinking with light project management skills. The opportunity exists to stretch beyond the strategic finance role and take on special projects within operations. The position will require a hands-on individual who can understand how products, commercial processes and systems drive the engine of our business and how they in turn impact our financial performance. This person will have the opportunity to interface with senior management and members of the C-Suite. The position will report to the Vice President of Strategic Finance. Title and salary dependent on skill, experience and education.

Duties & Responsibilities:

- Work closely with the Vice President of Strategic Finance and the Manager of FP&A to support the strategic finance function of the business which includes financial forecasting and analysis to guide strategic decision making, capital allocation, capital structure and key business activities
- Work on 5-year forecast including detailed revenue builds, cost builds and capital structure
- Provide financial modeling, diligence and strategic landscape support for strategic finance activities including investments, corporate development and capital raising
- Develop financial benchmarking metrics including trading and acquisition comparables
- Develop financial models to vet business cases in support of product management and other internal stakeholders
- Lead or assist in the creation of ad hoc analysis including costing analysis and KPIs to drive greater understanding of business performance
- Prepare ad hoc reports, Board presentations and projects summaries in support of business and management objectives
- Support other business needs requiring advanced Excel analysis
- Other duties as required

Skills & Requirements

- Bachelor's degree in a technical or scientific field of study (e.g., Accounting, Engineering, Computer Science, Biology, Chemistry, etc.) preferred
- Minimum of 2 years of relevant analytical experience (e.g., accounting or financial analysis); though flexible based on quality of experience
- Strong quantitative abilities
- Excellent written and verbal communication skills with ability to build relationships
- Able to solve complex problems
- High level of commercial acumen
- Strong attention to detail
- Advanced MS Excel skills, proficient in PowerPoint and Word

Akoya Biosciences, Inc. proudly affords equal employment opportunity to all qualified persons regardless of race, color, religious creed, national origin, age, military status, sexual orientation, disability, genetic information, gender identity, gender expression or gender unless based upon a bona fide occupational qualification.
