

Title: Technical Writer

Department: Marketing

Location: Menlo Park, CA or Marlborough, MA or Remote

About Akoya Biosciences:

As 'The Spatial Biology Company®', Akoya Biosciences' mission is to bring context to the world of biology and human health through the power of spatial phenotyping. The company offers comprehensive single-cell imaging solutions that allow researchers to phenotype cells with spatial context and visualize how they organize and interact to influence disease progression and treatment response. Akoya offers two distinct solutions, the CODEX® and Phenoptics™ platforms, to serve the diverse needs of researchers across discovery, translational and clinical research.

When you join us at Akoya, you will be part of a team that is passionate about commercializing cutting-edge spatial omics and imaging technologies that can transform biomarker discovery and its translation to the clinic. Joining a fast growing, mid-size startup also gives you tremendous opportunities to wear multiple hats and eventually grow into a leadership role as the company expands.

Position Summary:

As a Tech Writer within Akoya's Marketing Team, you will be instrumental in creating compelling scientific literature and content for a diverse set of target audiences that spans pathologists, cell biologists, immunologists, cancer researchers, genomics enthusiasts, imaging experts, data scientists and more. The candidate in this role can easily grasp complex technical concepts and convey them in a crisp, succinct way through application notes, white papers, technical notes etc.

Duties & Responsibilities:

- Partner with Applications, Field Specialists, R&D, Product Management, and the broader Marketing Team to create technical literature (app notes, tech notes, white papers, publication summaries etc) with a clear, concise and credible scientific voice.
- Seamless align the company's brand messaging, product positioning with the deeply scientific content presented in the technical literature.
- Develop a uniform language and style guide for Akoya's technical literature.
- Gather feedback from Field and Technical Application Specialists to develop new technical sales tools that convey the product benefits in creative, credible ways.

Skills & Requirements

- Masters or other advanced degree in the field of life science research or similar area.
- Previous tech writer experience within the life science research industry a plus
- Clear demonstration of tech writing expertise through academic or commercial writing samples preferred (journal articles, grant applications could also count)
- Excellent grammatical and editing skills (in English)
- Keen attention to detail and accuracy
- Ability to quickly learn new scientific concepts and juggle multiple priorities efficiently.
- A penchant for compelling storytelling through technical writing
- Wet lab experience or bioinformatics experience a plus
- Have a passion for educating the scientific community about new, cutting-edge technologies and discoveries.

Akoya Biosciences, Inc. proudly affords equal employment opportunity to all qualified persons regardless of race, color, religious creed, national origin, age, military status, sexual orientation, disability, genetic information, gender identity, gender expression or gender unless based upon a bona fide occupational qualification.
